*Create a Legacy*

Proud of the history of your business?

Gearing up to celebrate a landmark company anniversary?

Founders or key employees in your business about to retire?

*Create a legacy by  
preserving the history  
of your business on video.*

## *Do you remember when... ?*

If you're involved in a business, you have heard those words many times. But treasured memories can be lost as valued members of your company's team retire or move on. Now, you have an opportunity to create a lasting legacy, a moving document that will endure as a record of your achievements.

Your old photos, forgotten home movies, and dated brochures will become valuable resources used in fashioning a unique video program.

The result will be a video you can proudly share with employees, family members, community members, and friends of your business. You'll screen your video at community events and facility open houses, show it to visitors, and use it as part of the orientation process for new employees.

## *About the Filmmakers*

Capital City Communications has a twenty-year background in documentary filmmaking. CCC president Frank Cervarich has earned awards including multiple CINE Golden Eagles, national and regional Emmy Awards, and the duPont/Columbia Award for Broadcast Journalism. And how did we win these awards? We have the sensitivity to get people to talk about the things they hold dear, and the skill to capture those memories on camera.

---
