*Create a Legacy*

Hosting a family reunion?

Moving from your longtime home?

Welcoming grandchildren or great-grandchildren to the family?

*Now is the time to create  
the most valuable heirloom  
you'll ever pass along to  
future generations – a DVD  
of your family's history.*

## *Creating a legacy*

Tradition Films offers you the unique opportunity to preserve a verbal and visual record of the most precious part of your life—your family.

Look around you. Voices—voices with vital stories to tell—are being lost each day. Too often, they leave behind no record. Home movies, photos, and mementos are shoved into drawers. Valuable keepsakes are parceled out among family members. Without your realizing it, the details of your family history—your own unique story—are being scattered to the winds of chance.

Don't let this happen. Contact Capital City Communications to preserve your history on DVD. We'll record beloved family members recounting the stories that make your family's history so rich. Vintage photos, mementos, and home movies will be integrated into the program, bringing the story of your family to life.

Your DVD will enliven the soul while providing lasting entertainment and a valuable archive of your family's history for years to come. It will become a cherished family artifact.

## *About the Filmmakers*

Capital City Communications has a twenty-year background in documentary filmmaking. CCC president Frank Cervarich has earned awards including multiple CINE Golden Eagles, national and regional Emmy Awards, and the duPont/Columbia Award for Broadcast Journalism. And how did we win these awards? We have the sensitivity to get people to talk about the things they hold dear, and the skill to capture those memories on camera.
